

Supplementary Materials

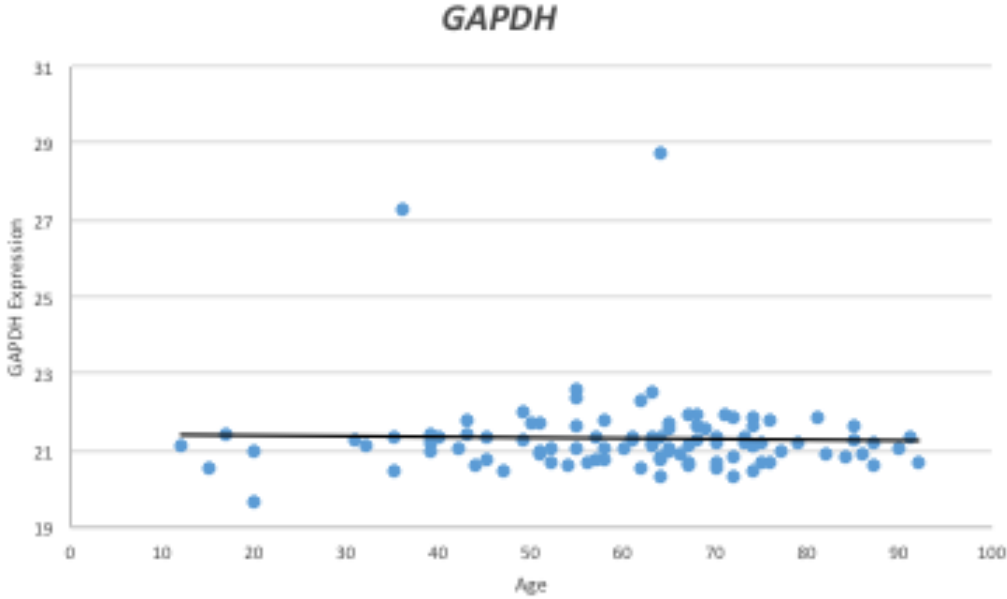

Figure S1. The absence of correlation of GAPDH with aging. *GAPDH* expression levels graphed against age with 101 samples.

Table S1. Age of the clinical samples used in Figures 3–5 and Figure S1.

Sample	Age	Sample	Age	Sample	Age
1	68	34	42	67	45
2	64	35	39	68	57
3	52	36	43	69	64
