

Supplementary Materials: Improving Uptake and Sustainability of Sanitation Interventions in Timor-Leste: A Case Study

Stakeholders were asked to indicate their level of agreement or disagreement with eight statements relating to the roll-out of interventions in communities. Responses were graded from 1–5, with 1 and 2 indicating strong disagreement and disagreement respectively (Figure S1, orange bars), and 4 and 5 indicating agreement and strong agreement respectively (Figure S1, green bars); 3 indicated a neutral response to the statement (Figure S1, grey bars).

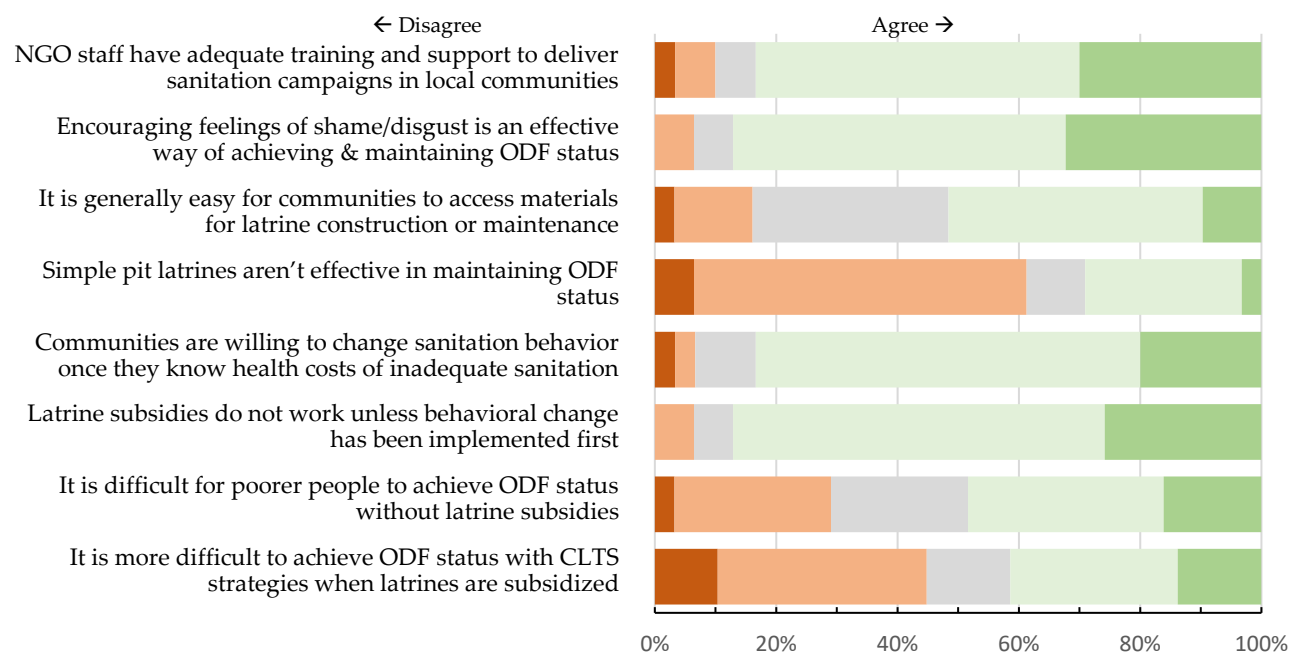

Figure S1. Stakeholder opinions in response to statements on sanitation and ODF status. Dark orange and pale orange bars represent strong disagreement and disagreement respectively; dark green and pale green bars represent strong agreement and agreement respectively; grey bars represent a neutral response.
