Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

**Author Benefits**

- **Open Access** Unlimited and free access for readers
- **No Copyright Constraints** Retain copyright of your work and free use of your article
- **Impact Factor 3.267** (2019 Journal Citation Reports®)
- **Thorough Peer-Review**
- **Coverage by Leading Indexing Services** SCIE-Science Citation Index Expanded (Clarivate Analytics), MEDLINE (NLM), PubMed (NLM), Scopus (Elsevier)
Aims and Scope

Authors are encouraged to publish full details of synthetic procedures and characterization information. There is no restriction on the length of the experimental section. Availability of compound samples is considered important information.

The scope of *Molecules* includes:

- Organic chemistry
- Medicinal chemistry
- Natural products
- Inorganic chemistry
- Physical chemistry
- Materials science
- Nanoscience
- Catalysis
- Chemical biology
- Analytical chemistry
- Supramolecular chemistry
- Theoretical chemistry
- Green chemistry
- Photochemistry
- Electrochemistry
- Applied Chemistry
- Molecular Liquids
- Molecular Structure

*Molecules* regularly publishes special issues on relevant and timely topics. Check our website for an updated list of special issues.
