# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

**Editor-in-Chief**

Prof. Dr. Marc A. Rosen

---

## Aims

Our aim is to encourage researchers to publish their experimental, computational, and theoretical research relating to natural and applied sciences, engineering, economics, social sciences, and humanities in detail to promote scientific and other understanding and to permit predictions and impact assessments of global change and development related to sustainability. Knowing the importance of sustainability and achieving sustainable development for humanity, *Sustainability* strives to support the 2030 Agenda for Sustainable Development adopted by United Nations. As a transdisciplinary journal, *Sustainability* encourages researchers to provide full experimental and methodological details so that results can be reproduced and assessed. The journal supports open access and open science.

---

## Scope

- Challenges relating to sustainability
  - Air pollution and climate change
  - Water pollution and sanitation
  - Misuse of land
  - Desertification and drought
  - Industrial development and energy crisis
  - Toxic chemicals and hazardous and radioactive wastes
  - Population explosion and urbanization
  - Unsustainable patterns of production and consumption
- Socio-economic, scientific and integrated approaches to sustainable development
  - Development and realization of national policies and international treaties for sustainable development
  - Implementation and monitoring of policies for sustainable development
  - Changing consumption and production patterns
  - Developments in cultural diversity, tradition, social systems, globalization, immigration and settlement, and their impact on cultural or social sustainability
  - Ethical and philosophical aspects of sustainable development
- Other topics related to sustainability
  - Defining and quantifying sustainability
  - Measuring and monitoring sustainability
  - Sustainability tools
  - Applications of sustainability
  - Policies and laws relating to sustainability
  - Sustainability science

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### 2023 Impact Factor: 3.3

(*Journal Citation Reports* - Clarivate, 2024)

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

### Coverage by Leading Indexing Services

Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases

### Rapid Publication

A first decision is provided to authors approximately 20 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024)
