Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

- **Open Access** Unlimited and free access for readers
- **No Copyright Constraints** Retain copyright of your work and free use of your article
- **Impact Factor 2.576 (2019 Journal Citation Reports®)** JCR - Q2 (Environmental Studies/Environmental Sciences)
- **Thorough Peer-Review**
- **Coverage by Leading Indexing Services** SCIE-Science Citation Index Expanded (Clarivate Analytics), SSCI-Social Sciences Citation Index (Clarivate Analytics), Scopus (Elsevier), Inspec (IET)
- **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
- **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program
- **CiteScore 2019 (Scopus) 3.2** CiteScore - Q1 (Geography, Planning and Development/Environmental Science (miscellaneous)/Energy Engineering and Power Technology/Management, Monitoring, Policy and Law/Renewable Energy, Sustainability and the Environment)
Aims and Scope

Our aim is to encourage experts to publish their experimental, computational and theoretical research on sustainability. This encompasses topics related to social sciences, natural and applied science and engineering, in order to enable the application and development of sustainability.

Subject Areas

- Defining, quantifying, measuring, and monitoring sustainability
- Environmental management and conservation
- Resources and sustainable utilization
- Climate change
- Sustainability of energy resources
- Sustainable regional planning and development
- Sustainable economic development and business management
- Sustainable supply chains, logistics, and transportation
- Food consumption and safety
- Sustainable agriculture
- Sustainability, biodiversity and conservation
- Education for sustainability
- Sustainable tourism, culture preservation, and heritage conservation
- Relation of geographical changes and social development to sustainability
- Psychological aspects of sustainability and sustainable development
- Health and sustainability
- Hazards and sustainability
- Sustainable materials
