an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Matthias Thielmann

Message from the Editor-in-Chief

As a new international and multidisciplinary peer-reviewed open access journal for all areas of cardiology and cardiac and vascular surgery, *Hearts* has been founded to publish original research, reviews, position papers and guideline documents, letters, 'how to do' reports, and rapid communications.

Cardiology and cardiovascular surgery are rapidly developing specialties in the wide field of cardiovascular medicine. These disciplines are each diversifying but also growing together, and the 'heart team' is nowadays highly appreciated by both researchers and clinicians, finally benefitting our patients. Innovative developments, treatment strategies, and procedures as well as new inventions in the field of cardiovascular medicine are of utmost importance, and *Hearts* fully supports and encourages those who want to find an adequate platform to communicate, discuss with colleagues all over the globe, and successfully publish their work at the right place and time.

The entire *Hearts* team, the dedicated Editorial Office, and the distinguished Editorial and Reviewer Board encourage and cordially invite you to actively participate with your scientific work. We at *Hearts* want you to enjoy publishing with us!

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Thorough Peer-Review**
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors

Aims and Scope

Hearts is an international, peer-reviewed, scientific open access journal of cardiology and cardiovascular surgery, published by MDPI online. It publishes the highest-quality material covering basic, translational and clinical research, in all areas of innovative science for cardiovascular medicine and at the interface of related disciplines. The journal publishes original research articles, reviews, position papers and guideline documents, proceedings papers, letters, and communications. This multidisciplinary journal is aimed at a wide audience of both practicing clinicians and researchers, including cardiologists, cardiac and vascular surgeons, anesthesiologists, electrophysiologists, clinical physiology, interventionalists, angiologists, specialists in internal medicine, pediatrics, nurses, and others interested in cardiovascular medicine. The full experimental details must be provided so that the results can be reproduced. Electronic files regarding the full details of the experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

The scope of *Hearts* includes

- Diseases
- Treatments
- Disciplines
 - Basic and Translational Research
 - Cardiology
 - Cardiovascular Surgery
 - Cardiovascular Critical Care
 - Cardiovascular Epidemiology and Prevention
