## Section **Pharmaceutical Technology**

### Section Editor-in-Chief

**Prof. Dr. Serge Mordon**

INSERM (French National Institute of Health and Medical Research) U1026, The Laboratory of the Bioengineering of Tissues (BioTis), University of Bordeaux, 146 rue Léo Saignat, 33076 Bordeaux, France

### Section Information

The Pharmaceutical Technology Section is devoted to the description of tools enabling the modulation of interactions between drugs or drug candidates and their specific targets. It concerns all technologies and methods related to the development of a pharmaceutical form using natural, semi-synthetic, and synthetic active and auxiliary substances, production in industry, and use in patients. This includes:

- Drug chemistry
- Process technology
- Innovative instrumentation
- Drug manufacturing
- Drug analysis
- Drug production
- Drug delivery
- Management and analysis of data
- Test and quality control
- Regulatory affairs
