buildings](https://mdpi.com/journal/buildings)

Section Information

This section of *Buildings* aims to gather and disseminate research work related to “Building Structures”, as well as to stimulate discussion among researchers, academia, and industry, encouraging the development and application of innovative structural systems and approaches in buildings. This Section welcomes papers comprising experimental studies, numerical studies, and case studies. All topics related to the design, construction, assessment, and retrofitting of building structures are welcome in this section.

Section Editor-in-Chief

Prof. Dr. Humberto Varum
