

Prof.Dr.Marin Berovič

Marin Berovič

Full time Professor of Biotechnology and Bioengineering on Faculty of Chemistry and Chemical Technology, Department on Chemical, Biochemical and Environmental Engineering (1998-2016). B.Sc., M.Sc. Ph.D in Chemical and Biochemical Engineering, on Faculty of Chemistry and Chemical Engineering, University of Ljubljana / TU Graz. Academy of Engineering Sciences of Slovenia Member.

From 1994 to 2016 was heading Research and Development on bilateral cooperation Slovenia / China on Medicinal Mushroom Technology. Expertises: biochemical engineering, bioreactors, rheology and instrumentation of bioprocesses, solid state bioprocessing, medicinal mushroom and wine process engineering. Specialized : TU Graz, TU Delft-Leiden, TU Hannover, TU Denmark, Lyngby, Strathclyde University. Guest professor : Pontificia Universidad Católica de Santiago de Chile.

Chairman of European Society on Biochemical Engineering Sciences and Executive Board of European Federation on Biotechnology 2005-2008. Vice-Chairman of International Organization on Biotechnology and Bioengineering. Founder of Doctoral / Post doctoral EU Bioprocess Engineering Course. Awarded with several prizes for Innovations, Research and Development in Biochemical Engineering. Member of New York Academy of Sciences.
