In the published paper [1], there is an error in Figure 1. The labels of the horizontal axis in Figure 1 were incomplete. The correct figure should read as follows:

**Figure 1.** Heat map of the effects of individual stakeholder categories sharing knowledge on each stakeholder type log odds of learning in (a) democracies; and (b) nondemocracies. Firth logit coefficients. \*  $p < 0.10$ , \*\*  $p < 0.05$ , \*\*\*  $p < 0.01$ . Observations not clustered by country.

The author apologizes for any inconvenience caused to readers by these changes. The manuscript will be updated, and the original will remain online on the article webpage, with a reference to this addendum.
