Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

- **Open Access** Unlimited and free access for readers
- **No Copyright Constraints** Retain copyright of your work and free use of your article
- **Impact Factor 2.075** (2017 Journal Citation Reports®)
- **Thorough Peer-Review**
- **Coverage by Leading Indexing Services** SCIE-Science Citation Index Expanded (Clarivate Analytics), SSCI-Social Science Citation Index Expanded (Clarivate Analytics), Scopus (Elsevier)
- **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
- **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program
Aims and Scope

Our aim is to encourage scientists to publish their experimental and theoretical research relating to natural sciences, social sciences and humanities in as much detail as possible, in order to promote scientific predictions and impact assessments of global change and development.

Subject Areas

- Defining, quantifying, measuring and monitoring sustainability
- Sustainable utilization of resources such as land, water, atmosphere and other biological resources
- Effects of global climate change on development and sustainability
- Sustainable chemistry
- Health-related aspects of sustainability
- Developments in cultural diversity, tradition, social systems, globalization, immigration and settlement, and their impact on cultural or social sustainability
- System analysis methods, including life cycle assessment and management
- Education and awareness of sustainability
- Policies and laws relating to sustainability
