Organizational Sustainability: Theory, Culture, and Practice

Message from the Guest Editors

Dear Colleagues,

Sustainability—commonly defined as meeting the needs of the present without compromising the ability of future generations to meet their needs—is an issue of concern to many organizations, including for-profit businesses, not-for-profit charities and foundations, cooperative organizations, hybrid organizations seeking a blend of purpose and profit, and governmental and quasi-governmental agencies, among others.

One key way organizations contribute to sustainability—for better or worse—is through their practices. Other research has emphasized the importance of cultural factors, entrepreneurial efforts, and technological innovations. Organizations also can contribute to solving so-called grand challenges, such as poverty, hunger, water scarcity, inequality and so forth. Picking up on these themes, this special issue welcomes both theoretical and empirical papers that advance our understanding of organizational sustainability.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed by the Science Citation Index Expanded, the Social Sciences Citation Index (Web of Science) and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 22 days after submission; acceptance to publication is undertaken in 5.9 days (median values for papers published in this journal in 2017).
