In the original version of our article [1], the Formula (3) was written \( R_{ig}^c = \frac{1 \times \exp(ADD_{ig} \times q_{ig}) \times Y}{Y} \).

However, the formula should be \( R_{ig}^c = \frac{1 - \exp(-ADD_{ig} \times q_{ig}) \times Y}{Y} \). During the data analysis process we used the right formula so the data analysis result is right, so we only need to make revision to the third formula.

Author Contributions: Muyessar Turdi and Linsheng Yang found the problem; Muyessar Turdi and Linsheng Yang made revision to the manuscript.

Conflicts of Interest: The authors declare no conflict of interest.
