Supplementary Materials: Structural Characterization and Evolutionary Relationship of High-Molecular-Weight Glutenin Subunit Genes in *Roegneria nakaii* and *Roegneria alashanica*

Lujun Zhang, Zhixin Li, Renchun Fan, Bo Wei and Xiangqi Zhang

Figure S1. Cont.
Figure S1. Comparison of the coding region sequences of *Roegneria* high-molecular-weight glutenin subunit (HMW-GS) genes *Rny1, Rny3* and *Ray1* (a), and *Rny2, Rny4* and *Ray2* (b). Indels are boxed.
