**an Open Access Journal by MDPI**

## Editor-in-Chief

Prof. Dr. Nelson Tansu

## Message from the Editor-in-Chief

Dear Colleagues,

You are invited to contribute a research article or a comprehensive review for consideration and publication in Photonics (ISSN 2304-6732). Photonics is an online open access journal covering both the fundamental and applications of optics and photonics. Photonics strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical / simulations and experimental works – in highly accessible peer-reviewed journal publications. The manuscript in Photonics will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in Photonics. Our goal in Photonics is to enable fast dissemination of high impact works to the scientific community.

## Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Thorough Peer-Review**
-  **Rapid Processing and Immediate Publication upon Acceptance**
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
-  **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program
-  **High Visibility** Indexed in Emerging Sources Citation Index (ESCI - Web of Science), INSPEC (IET), Scopus

## Aims and Scope

The scope of *Photonics* includes:

- Biophotonics, biomedical optics, and medical optics
- Semiconductor photonics and optoelectronics
- Nanotechnology and nanostructures in optics
- Quantum optics, quantum computing, and applications
- Photonic materials and technology
- Metamaterials, plasmonics, and nanophotonics
- Integrated Optoelectronics and Integrated Optics
- Photonics Device and Technologies
- Optical communications and systems
- Nonlinear and ultrafast optics
- Imaging systems and holography
- Computational photonics and nanostructures
- Photonics for Energy and Green Technologies
- Fundamental & applications of photonics / optics
- Photon-electron-phonon interaction in nanostructures
- Physics and simulation: material properties, device technologies, and integrated systems
