foods

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Christopher J. Smith

Message from the Editor-in-Chief

The development of *Foods*, an on-line open access journal, has been an exciting eight years and thanks to the dedication of the editorial team and the members of the editorial board, we have managed to publish seven volumes of the journal. The papers contained in these volumes have attracted great interest in terms of downloads and we are sure that the diversity of publications and the research intensity of the submissions will make *Foods* one of the leading open access journals in the area of Food Science. We would be pleased to welcome you as one of our authors, reviewers, readers, and/or editorial staff.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Thorough Peer-Review** Rigorous peer-review from expert Editorial Board and reputable scholars
-  **Fast Manuscript Handling Time** A median of 40 days from submission to publication
-  **Coverage by Leading Indexing Service** SCIE-Science Citation Index Expanded (Clarivate Analytics), Pubmed (NLM), Scopus (Elsevier)
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
-  **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program

Aims and Scope

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

The scope of *Foods* includes:

- Food sciences and technology
- Food chemistry and physical properties
- Food engineering and production
- Food security and safety
- Food toxicology
- Sensory and food quality
- Food analysis
- Functional foods, food and health
- Food psychology
- Food and environment
