Message from the Editor-in-Chief

*Medicines* is an international, open-access scientific journal that publishes all kinds of articles. The editorial board consists of top experts from all over the world. Every single name stands for high-quality research. As the logo of *Medicines* shows, the journal is about the symbiosis of tradition and innovation. Over the past two years, 18 Special Issues of *Medicines* opened their call for papers. We are expecting your high-quality scientific work in the field of *Medicines*. We intend to have a very short review process. I am sure your article in *Medicines* will be a success.

Author Benefits

- **Open Access**  Unlimited and free access for readers
- **Coverage by Leading Indexing Services**  PubMed
- **Thorough Peer-Review**  All submitted manuscripts undergo rigorous peer-review prior to publication
- **Fast Publication**  A first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 5 days (median values for papers published in this journal in 2017)
- **No Space Constraints**  No restriction on the length of the papers
Aims and Scope

Medicines (ISSN 2305-6320) covers all kinds of medicine, including, but not limited to, traditional, conventional established, and emerging treatments. We encourage scientists to publish their theoretical and experimental results in as much detail as possible.

The scope of Medicines includes:

- History of medicine; medicine and philosophy
- Proven or evidence-based non-conventional (traditional, alternative, complementary or integrative) medicines, acupuncture or ethno-medicines, and natural product-based medicines
- Conventional medicine: both established and emerging natural product-based therapeutic agents and treatments
