Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Thorough Peer-Review**
-  **Fast Manuscript Handling Time** A first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 4 days (median values for papers published in first half of 2018)
-  **Coverage by Leading Indexing Services** Indexed in Biological Abstracts and BIOSIS Previews (Web of Science), INSPEC (IET), PubMed(NLM) and Scopus
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
-  **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program

Aims and Scope

Bioengineering (ISSN 2306-5354) publishes original research papers, comprehensive reviews, communications and case reports. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. All aspects of bioengineering are welcomed from theoretical concepts to education and applications. All submitted manuscripts undergo rigorous peer review prior to publication.

The scope of *Bioengineering* includes:

- Bionics and biological cybernetics
- Bioelectronics
- Bioprocess and biosystems engineering and applications
- Biomolecular, cellular and tissue engineering and applications
- Biomedical engineering and applications
- Biochemical engineering and applications
