Message from the Editor-in-Chief

Data is an open access journal that publishes scientific data in a reliable, citable, and accountable manner. *Data* grants the opportunity to formally share valuable data, for academic credit. It covers a wide range of disciplines in which data is generated so that published data is discoverable and available for wider re-use. The journal has highly accomplished scientists from a variety of disciplines on the editorial board. The publication emphasizes clarity, honesty, quality, and novelty and has a rigorous peer-review process. We strongly encourage you to share your data vision in *Data*.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **Rapid Publication** First decision provided to authors 20.5 days after submission; acceptance to publication is undertaken in 5 days (median values for peer-reviewed papers published in 2017)
-  **Thorough Peer-Review**
-  **High Visibility** Indexed in the Emerging Sources Citation Index (ESCI) - Web of Science and Inspec (IET)
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors

Aims and Scope

Data (ISSN 2306-5729) is a unique international, scientific open access journal on “data in science”. The journal provides a forum for data scientists as well as for scientists working with data.

The scope of *Data* includes:

Datasets and descriptions:

- Description of data and the methodologies used in the collection and treatment of scholarly or scientific research data and experiment data.

Data in applications (not limited to):

- Data in Bioscience
- Data in Healthcare and Medicine
- Data in Geoscience
- Data in Physics

Data-related processes:

- Data collection and data acquisition
- Data processing
- Data analysis
- Data maintenance and data integrity
- Data curation
- Data management systems
- Data compression
