Researchers are most welcome to contribute original research articles or comprehensive review papers for consideration and publication in *Journal of Risk and Financial Management* (JRFM), an on-line, open access journal. JRFM adheres to rigorous peer-review as well as editorial processes, and publishes high quality manuscripts that address theoretical, practical and empirical issues in analysing real life financial data. The goal of JRFM is to enable rapid dissemination of high impact research to the scientific community.

**Open Access**  Unlimited and free access for readers

**No Copyright Constraints**  Retain copyright of your work and free use of your article

**Thorough Peer-Review**

**High Visibility**  Indexed in Emerging Sources Citation Index (ESCI - Web of Science), EconLit, RePEc, DOAJ and other databases

**Rapid publication**  Submission to 1st Decision within 24 days; Acceptance to Publication within 7 days. 2017 Median APT: 57 days

**No Space Constraints, No Extra Space or Color Charges**  No restriction on the length of the papers, number of figures or colors
Aims and Scope

*JRFM* (ISSN 1911-8074) is an international, peer-reviewed, open access journal devoted to the rapid publication of original and innovative papers, theoretical analysis, comprehensive review articles, short notes, and communications related to all fields associated with risk and financial management. Technical areas associated with analysing and managing large portfolios of financial assets, with alternative time-varying (or dynamic) risk models, such as conditional, stochastic and realized volatility, volatility and co-volatility spillovers, and causality in higher moments, such as variance, skewness and kurtosis, are strongly encouraged for submission. Mathematical, statistical, econometric, and computational issues are paramount as they are intrinsically associated with the theoretical, practical and empirical issues in analysing real life financial data.

Researchers are encouraged to publish the results of their theoretical and empirical analysis in as much detail as possible. The journal intends to publish high impact theoretical and empirical outcomes in a short turnaround time.
