C Journal of Carbon Research

An Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Craig E. Banks

Message from the Editor-in-Chief

C (ISSN 2311-5629) is a new publication that seeks to cover the whole field of carbon research under an open access policy that charges minimal fees to authors without compromising either publishing standards or quality. It is open to anyone wanting to disseminate their new exciting high profile work. Open access significantly enhances the efficiency and efficacy of scientific communication and breaks down boundaries, so as to allow access to readers from around the world. We look forward to receiving your submission.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **Free Publication** No Article Processing Charges (APC) for well-prepared manuscripts submitted in 2018
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Rapid and Thorough Peer-Review** Manuscripts are peer-reviewed and a first decision provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 6.7 days (median values for papers published in this journal in 2017)
-  **High visibility** Indexed in Chemical Abstracts / SciFinder (ACS)
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors

Aims and Scope

C (ISSN 2311-5629) is an open access, international, interdisciplinary forum, communicating research spanning the entire spectrum of carbon research and carbon materials. The journal publishes comprehensive research articles, reviews, communications and letters, and encourages original and novel papers of general or specialist importance. There is no restriction on the length of the papers.

The scope of *C* includes:

- New carbon materials
- Formation, structures and properties of carbon materials
- Functional carbon materials
- Advances in applications and technologies involving carbon materials
- Carbon cycle
- Combustion emissions
- Carbon capture and storage and related environmental topics
- Use of carbon in energy storage and generation
