fermentation

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Badal C. Saha

Message from the Editor-in-Chief

Welcome to a new open access journal, *Fermentation*, which meets the growing need for a high quality peer-reviewed international journal with easy access to all researchers globally. We hope that you will share our enthusiasm for this new journal and look forward to working with you to make *Fermentation* a leader in its field. Your contributions are vital for the success of this new journal. The publication fees are therefore fully waived for papers submitted in 2018. Proposals for editing a special issue for a particular topical area are always welcome.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Thorough Peer-Review**
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
-  **Free Publication** No Article Processing Charges (APC) for well-prepared manuscripts submitted in 2018

Aims and Scope

Fermentation (ISSN 2311-5637) aims at a broad multi-disciplinary readership, which includes both academia and industries, and covers broad areas of research and technological advances on all aspects of fermentation. We encourage researchers to publish their experimental, theoretical, and computational results in as much detail as necessary in order that the results could be reproduced.

The scope of *Fermentation* includes:

- Fermentation process and product development
- Strain improvement
- Bioprocess and metabolic engineering
- Scale up of fermentation processes
- Downstream processing of fermentation products
- Microbial physiology and metabolism
- Genomics, proteomics, metabolomics and systems biology
- Bioreactor design, monitoring, biosensors and instrumentation
