cryptography

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Kwangjo Kim

Message from the Editor-in-Chief

Cryptography is a new international journal which provides the state-of-the-art forum for original results in all areas of modern cryptography. *Cryptography* is published in open access format: research articles, reviews and other contents are released on the internet immediately after acceptance. Our journal welcomes submissions written from the theory and practices of modern cryptography, so that it may become a forum for exchange of new scientific developments between the cryptographers and the practitioners. We would be pleased to welcome you as one of our authors.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Thorough Rigorous Peer-Review**
-  **Rapid Processing and Immediate Publication upon Acceptance**
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
-  **Free Publication** Article Processing Charges (APC) are currently waived

Aims and Scope

Cryptography is an international, peer-reviewed open access journal which provides the state-of-the-art forum for original results in all areas of modern cryptography as well as their practice, implementation, application, and related standards. *Cryptography* will publish high-quality reviews, regular research papers and short communications in all areas of theory and practice of modern cryptography.

Topics covered by *Cryptography* include:

Theory of cryptography

Secret-key cryptography

Public-key cryptography

Hash functions

Cryptanalysis

Cryptographic protocols

Quantum safe cryptography

Practice of cryptography

Cryptographic hardware/engineering

Applied cryptography

Secure smart system/device

Digital forensics

Digital rights management
