# *inventions*

an Open Access Journal by MDPI

## Editors-in-Chief

Prof. Shouu-Jinn Chang

Prof. Chien-Hung Liu

## Message from the Editorial Board

The unique journal *Inventions* is different from all other journals. Many scholars spend their lives publishing research papers in many different journals, but most of these journals do not help scholars collate and analyze their results or assist in promoting them to a relevant industry. However, *Inventions* will help authors not only to publish their papers in the journal, but also to promote their research results to industry and assist them in realizing the purpose of technology transfer. In the future, *Inventions* will help authors to evaluate their technology license fees based on the valuation theory and approaches and also help authors to show their patents and technologies on a network transaction platform.

## Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints**  
Retain copyright of your work and free use of your article
-  **Fast Manuscript Handling Process**
-  **Thorough Peer-Review**
-  **No Space Constraints, No Extra Space or Color Charges**  
No restriction on the length of the papers, number of figures or colors
-  **Possibly Evaluate Technology License Fees of Published Papers for Authors**
-  **Possibly Show Their Published Technologies on a Network Transaction Platform for Authors**

## Aims and Scope

*Inventions* is an international, peer-reviewed journal that publishes original scientific research of significance concerning innovation/invention, or patent-based/extended/reviewed research papers in all fields of science, engineering and product development processes. We encourage authors to give special attention to patent-based/extended researches and short technical reports regarding transferring technology.

The scope of *Inventions* includes:

- Patent-based/extended/reviewed inventions in engineering
- Innovation/inventions in systems
- Innovation/inventions in devices
- Innovation/inventions in methods
- Innovation/inventions in composition
- Innovation/inventions in processes
- Innovation/inventions in products
- Innovation/inventions in design
- Innovation/inventions in advanced technologies
