of Mechanical Engineering
Georgia Institute of Technology
Atlanta, GA 30332-0405, USA

Message from the Editor-in-Chief

Journal of Manufacturing and Materials Processing (JMMP) (ISSN 2504-4494) is a new MDPI peer-reviewed, open access venue with a focus on the scientific fundamentals and engineering methodologies of manufacturing and materials processing. We offers an online platform facilitating effective exchange of innovative scientific and engineering ideas and the dissemination of recent, original, and significant research and developmental findings. On behalf of the Editorial Board, I extend an invitation to our scientific and engineering colleagues to contribute high-quality, innovative, and ground-breaking research articles to *JMMP*.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **Thorough Peer-Review**
-  **Free of Charge**
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors

Aims and Scope

Journal of Manufacturing and Materials Processing (ISSN 2504-4494) aims to publish state of the art knowledge in the fields of processes, equipment, systems, and materials in relation to materials processing and manufacturing. It offers an online platform facilitating effective exchange of innovative scientific and engineering ideas and the dissemination of recent, original, and significant research and developmental findings.

The scope of the journal covers, but is not limited to, the following areas:

- Mechanics analysis and predictive modeling of engineering materials
- Establishment of advanced and innovative methodologies for manufacturing operations
- Research findings on materials processing to transform material properties and characteristics
- Design of equipment or the development of tooling for materials processing and manufacturing
- Assessment and control of process quality, efficiency, and competitiveness
- Capability enhancement of materials processing and manufacturing through control, measurement, monitoring, and automation

Editorial Board Members:

Hitomi Yamaguchi Greenslet, USA
Glenn S. Daehn, USA
Kornel Ehmann, USA
Joshua M. Pearce, USA
Zafer Gürdal, USA
Richard A. Wysk, USA
Chris Yuan, USA
Shuting Lei, USA
Keith Ridgway, UK
Rossi Setchi, UK
Paul Mativenga, UK
Lin Li, UK
