Message from the Editorial Board

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 2.935.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **Reliable Service** Thorough peer-review and professional publication
-  **Affordable Price** Max. APC 1500 CHF and flexible discount policy, no charge for extra page or color
-  **High Speed** 37 days from submission to publication
-  **Coverage by Leading Indexing Service** SCIE-Science Citation Index Expanded (Clarivate Analytics, formerly Thomson Reuters), Scopus, Ei Compendex, CAS, Polymer Library, EBSCOhost and Current Contents - Physical, Chemical & Earth Sciences

Aims and Scope

Polymers (ISSN 2073-4360) is an international open access journal of polymer science. It publishes research papers, communications and review articles. *Polymers* provides an interdisciplinary forum for publishing papers which advance the fields of (i) polymerization methods, (ii) theory, simulation, and modeling, (iii) understanding of new physical phenomena, (iv) advances in characterization techniques, and (v) harnessing of self-assembly and biological strategies for producing complex multifunctional structures.

The scope of *Polymers* includes:

- Polymer chemistry
- Macromolecular chemistry
- Biomacromolecules and complex polymer systems
- Polymeric hybrid materials
- Polymer physics
- Polymer characterization
- Thermodynamics
- Synthetic polymers
- Natural polymers
- Fibers, films
- Plastics, elastomers
- Advanced processing of polymers
